Event.

① Note.

We did a 'king of the road' like contest, where the children were divided into groups and had a challenge book to complete. Because this was the first moment we had children from the village and the centre at the skatepark, we mixed children into groups so they got to know each other. The four groups (each led by a teacher) had 2 hours to complete as many challenges as they could to finish with a speed race with 1 participant from each group. After this, points were counted, and groups were celebrated for their efforts. It was a truly incredible day: all the children were fully engaged and excited to work with their team to get points. The children did really well in working together with their group (and new skate friends they met for the first time) and pushing their limits.
